

2nd Annual

ADVANCED LAPAROSCOPIC BENIGN UPPER GI/HIATAL SURGERY AND BILE DUCT EXPLORATION COURSE

**Torbay Hospital, South Devon Upper GI Unit,
Newton Rd, Torquay, Devon TQ2 7AA**

Thursday 19th and Friday 20th January 2017

This two day course is designed to concentrate on aspects of elective and emergency complex benign upper GI surgery, that senior trainees may have limited exposure to and junior consultants may feel less confident in their clinical practice.

ADVANCED LAPAROSCOPIC BENIGN UPPER GI/HIATAL SURGERY AND BILE DUCT EXPLORATION COURSE

19th and 20th January 2017

Including:

- Live link surgery
- Interactive lectures
- Wetlab hands on training

Part of this course is aimed at senior trainees and established consultants aiming to start or improve upon their current set up and technique for bile duct exploration, which is now accepted as a standard of practice by NICE and provides benefits to the patient, surgeon and the healthcare provider.

Full course Thursday 19th January and Friday 20th January 2017 at a cost of Trainee £150 and Consultant £250
